

Jayna Bonfini, PhD, LPC, NCC, ACS, MAC

*Master Trainer and Consultant for the Consulting and Training Team at the Hazelden Betty Ford Foundation*

### About the Presenter:

Dr. Jayna Bonfini has significant research, teaching, and clinical experience with individuals struggling with various mental health issues, trauma histories, and substance abuse problems. She is a Licensed Professional Counselor, Master Addictions Counselor, Approved Clinical Supervisor, and a Nationally Certified Counselor; she earned her doctorate at Duquesne University. Dr. Bonfini has worked in community mental health, a college counseling center, psychiatric hospital programs, justice-involved organizations, and private practice. She lives in the Atlanta area with her husband, two kids, and a Yorkshire Terrier, Leo.

March 10, 2023**

## Ethics & Legal Consideration Objectives

Upon completion of this program the learner will be able to:

1. Recognize common ethical dilemmas and identify strategies for treatment professionals to effectively manage and resolve various types of ethical challenges that may arise.
  2. Summarize ethical codes and Ohio-specific ethical and legal standards for treatment professionals.
  3. Examine laws and regulations that protect and safeguard confidentiality for clients seeking mental health and substance use treatment.
  4. Determine how treatment professionals can best maintain personal and professional boundaries as well as competency and integrity.
  5. Review numerous case studies that scrutinize ethical conflicts faced by treatment professionals.
- Outline the fundamental steps of decision-making for treatment professionals seeking to resolve ethical dilemmas.

## Clinical Supervision Objectives

Upon completion of this program the learner will be able to:

1. Identify the principles, models, and guidelines of clinical supervision.
2. Describe the attributes of successful clinical supervisors.
3. Explore the function and roles of a clinical supervisor (e.g., balancing clinical and administrative functions).
4. Recognize the developmental and contextual factors that impact clinical supervision.
5. Examine issues related to cultural competence, dual relationships and boundary issues, informed consent, confidentiality, and other ethical and legal considerations.
6. Assess strategies to assist supervisees with issues related to burnout, imposter syndrome, and other factors
